### PARTY REPRESENTATION

in realisating the representation I be southern states in the nation: at convenient of the party the Reparations national committee put the Pronussa more nearly on the basis of votes cast. It is completion announced in the direction of giving the states that do the etectone is dominant place in making the monimations. No state is deprived or a voice, but where the Republican organization is merely nomina the representation is likewise. Some of the southern politicians objected to the plan but since it conten plates a distribution more nearly on mern than heretofore there can be no valid objection armed against it Mississippi and South Carolina are the worst forers, but we do not recall that they have assisted mater fally in the election of any Republican president. Any state whose representation is reduced can its to install shock absorbers by the erouse it by increasing its Republitime it will have to take the conlican vote, and that seems fair.

Representation based on the numher of senators and representatives. as was the plan up to five years ago, was an arbitrary arrangement purely. It was in no respect representative of the voting strength of the party if honor goes where honor is, due, representation should be founded on votes east. The new basts will increase the initiaence of the strong Republican states, since there is a nonus in delegates of fered for added votes. The change abandons the population feature without regard in political affilia tions and establishes something quite

akin to representation proportional. the Republican vote cast. Under the old system Toxus had delegates in number not far below Pennsylvania, yet the latter is certainly a far more dependable Republican

state than the former. It is well that the inequalities Under the Spell of Capes

For utility capes and for pear to have put designers under a spell and in salk they invade the realm of capes for dress. One of these appears at the right of the pleture showing a somewhat complicated development of the cape and the usual fringe trimming

But for divessy capes nothing rivals to remember the various trade names that have been given them, and they make ghorious wraps. Fringe is the favorite tribuming for them, but applique motifs made of the material are ingeniously used on those will wonderfully effective in creps de chine. Many of these crepes reveal two colors
